Summary

Final-year BSc Data Science student with AI engineering experience in agent governance analytics, RAG and agentic systems. Seeking AI/ML engineering and data science roles.

Experience

Infosys Limited / AI Engineering Intern FEB 2026 – AUG 2026 · BANGALORE, INDIA

- Built the trust-analytics layer of a team-built Agent Governance Framework: feature engineering, supervised and unsupervised adversarial detection, and PSI drift monitoring, with Streamlit and Dash dashboards
- Built 'Attack Day', an adversarial simulation with synthetic attacker agents that stress-tests the framework's trust scoring
- Co-authored the InStep Project Fest 2026 submission with a team of 4 and led the presentation through 3 review stages, including a session with Infosys founder N. R. Narayana Murthy and CTO Rafee Tarafdar
- Built a Multimodal RAG Research Assistant with document/image embeddings and a Data Analyst Agent executing sandboxed pandas code from natural-language queries, during AI-First Engineering training

Projects

FridgeGuard / Sensor Analytics & AI Explain AUG 2025

- Led the data and product stream in a cross-disciplinary team of 8, defining pipelines and mould-risk logic for temperature, humidity and VOC sensor data
- Prototyped a 6-screen web app with AI-generated anomaly explanations and presented the concept in the programme's final pitch

Nutritional Assistant / RAG on Azure OpenAI DEC 2024 – JAN 2025

- Fine-tuned a GPT-4 deployment and configured 3 Azure AI Search indexes for grounded, personalised nutrition guidance across articles, nutrient data and recipes
- Orchestrated JSONL, PDF and CSV ingestion to Azure Blob Storage, added text-to-speech and achieved 4.58/5 average satisfaction in pilot testing

Urban Threads / Retail Analytics Dashboard OCT 2024 – JAN 2025

- Modelled a star schema and delivered a 3-page Qlik dashboard with 5 filters and YoY KPIs; earned 9/10 in a course led by KPMG Mexico's Head of Tax Technology

Education

ESCOM – Instituto Politécnico Nacional / BSc Data Science AUG 2022 – EXPECTED 2027 · MEXICO CITY, MX
GPA: 9.27/10

Universidad de San Buenaventura / Academic Exchange AUG 2026 – DEC 2026 · BOGOTÁ, COLOMBIA
Coursework in Systems Engineering and Business Administration

Queen Mary University of London / Academic Exchange SEP 2025 – JAN 2026 · LONDON, UK
Introduction to AI (A), Multi-Platform Game Development (B)

Skills

Programming: Python, SQL, C#

AI/ML: LangChain, LangGraph, RAG, LLM fine-tuning, Multi-Agent Orchestration, Claude Agent SDK, scikit-learn, pandas, NumPy

Governance & Backend: AI Governance, Pydantic, FastAPI, SQLAlchemy/Alembic, PostgreSQL

Cloud & Tools: Azure OpenAI, AI Search, Blob Storage, GCP foundations, Docker, Git, Linux

Languages: Spanish (native), English (C1 – PTE Academic 83/90)

Certifications

Claude Certified Architect - Professional (2026) · Claude Certified Architect - Foundations (2026) · Koenig/Infosys: AI-First Engineering; Python API & Microservices; Web Programming (2026) · Google AI Essentials (2024) · Google Cloud Computing Foundations (2024)
